**AMENDMENT AFTER ALLOWANCE
SUBMISSION OF REISSUE DECLARATION**

SIR:

Please place of record the attached reissue declaration and enter the following:

REMARKS

The attached reissue declaration incorporates by reference all amendments “through April 12, 2006.” April 12, 2006, was the date of a telephone conference between the undersigned and Mr. Steve Marcus, wherein Mr. Marcus first explained to the undersigned the need for a reissue declaration that took into consideration the

USSN 10/067,190
Amendment After Allowance

amendments made to the issue application subsequent to the date of execution of the previous reissue declaration. Accordingly, April 12, 2006, was selected as the date of mention in the current reissue declaration, and the reissue declaration, thus, takes into consideration all amendments through and including April 12, 2006.

Early reissuance of the patent is earnestly solicited.

Respectfully submitted,
NORRIS McLAUGHLIN & MARCUS, P.A.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (check all boxes that apply)

- ☐ by reason of a defective specification or drawing.
- ☐ by reason of the patentee claiming more or less than he had the right to claim in the patent.
- ☒ by reason of other errors as described below.

The present reissue application is filed to correct two errors: First, patent claim 9 is improperly dependent on patent claim 8. Patent claim 8 requires "a compound according to claim 1." Patent claim 1, in turn, limits such compound to those wherein "A represents an ethylene group which may be substituted by methyl." Patent claim 9 recites two tetrahydropyrimidine compounds and one tetrahydrothiazine compound, which would correspond to compounds of patent claim 1 wherein A represents a propylene group. Since patent claim 1 does not permit A to represent a propylene group, patent claim 9 is improperly dependent on patent claim 8.

Second, the USPTO has determined that patent claims contain multiple independent and distinct inventions, and has required restriction.

The present reissue application corrects these two errors as follows: The patent claims have been limited to imidazolidine compounds by amending original patent claims 1 and 2 to cancel values for X other than N-R², canceling original patent claim 6, and canceling from original patent claim 9 all non-imidazolidine compound species.

All errors corrected in this reissue application arose without any deceptive intention on the part of the applicant.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon, or any patent to which this declaration is directed.
